ORBIT INTERNATIONAL'S POWER UNIT SEGMENT
RECEIVES DEVELOPMENT ORDER FROM U.S. MARINE CORPS.

Hauppauge, New York, December 10, 2002—Orbit International Corp. (NASDAQ:ORBT) today announced that its Power Unit Segment, Behlman Electronics, Inc., has received a development order for \$100,000 from the United States Marine Corps for a portable frequency converter intended for use in harsh battlefield conditions.

The initial order is for four qualification units with expected delivery in the second quarter of 2003. Upon completion of the qualification testing by the marines, the plan is to deploy these units in the field for powering environmental control units (ECU's). Although there is currently no firm commitment for additional orders, pending successful completion of qualification testing, the potential exists for a significant amount of units to be procured and deployed in the field in the future.

Dennis Sunshine, President and CEO of Orbit, commented, "Behlman's Commercial Division has once again capitalized on its ability to provide high quality cost effective commercial-off-the-shelf (COTS) solutions for military applications. Behlman's platform design concept enables its products to be easily configured to meet custom applications, thereby meeting the government's directive for using COTS solutions wherever possible."

Orbit International Corp., based in Hauppauge, New York, is involved in the manufacture of customized electronic components and subsystems for military and nonmilitary government applications. Its Behlman Electronics, Inc. subsidiary manufactures and sells high quality commercial power units, AC power sources, frequency converters, uninterruptible power supplies and associated analytical equipment. The Behlman custom division designs, manufactures and sells power units and electronic products for measurement and display. For a more detailed discussion of the risks inherent in the Company's business the reader is referred to the Company's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2001.

This press release contains forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including the expected deliveries of the new development order, the potential for future orders Behlman's products related to the new development order and the ability of the Company's customers to recognize the advantage of its COTS solutions for military applications. These forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause the actual future results of the Company to be materially different from such forward looking statements. Factors that might result in such differences include, without limitation, the current economic climate and military conflicts, variable market conditions and changing needs of the defense sector

and the Company's customers. The forward-looking statements contained in this press release speak only as of the date hereof. The forward-looking statements contained herein are also subject generally to other risks and uncertainties that are described from time to time in the Company's reports and registration statements filed with the Securities and Exchange Commission.
